# WORLD SOCIETY FOR RECONSTRUCTIVE MICROSURGERY

August 4, 2011

Dear WSRM Country Liaisons,

It is my great pleasure to be elected as the new president of World Society of Reconstructive Microsurgery (WSRM). I would like to place my great effort in developing this society into the international federation of society of reconstructive microsurgery. We greatly appreciate your active contribution to WSRM.

My first business item as president of WSRM is to invite all societies of reconstructive microsurgery all over the world to join the WSRM. However, we do not know the present status of regional societies in each country. I would like to ask all members of the WSRM Country Liaisons to define the status of the society of reconstructive microsurgery in your country. If it exists, please, send me detailed information about the society including the name of current president and secretary, the address of the central office and their e-mail address to contact them. If not, I would like to ask you to make an effort to organize a society of reconstructive microsurgery in your country.

After I receive your information, I would like to invite your national society to join the WSRM.

Thank you for your kind cooperation. I am looking forward to hearing from you and your society.

Sincerely yours,

Kazuteru Doi, MD, PhD  
 President  
 The World Society of Reconstructive Microsurgery
